

Harish Prabhu P

Solutions & Delivery Engineer | Data, Automation, AI Systems

Scopes the problem, builds the fix, proves it worked. Accountable for delivery inside **four FairPrice Group business units** and opposite **four external vendors**. Ships inside the environment's constraints, then measures what changed. Studying a work-study BTech in Computing (**Artificial Intelligence**) at NTU.

Work Experience

Executive - Service Analytics (Customer Service) | FairPrice Group, Singapore

November 2025 - May 2026

- **Project-In-Charge across all business units** (Retail, Ecommerce, Food Services, Link), framing problems with the business and translating them into **specifications and acceptance criteria**
- **Single point of contact for four external delivery partners** on separate programmes, **Viseo** (Salesforce Einstein chatbot), **Deloitte**, **Nautilus** (IVR telephony) and a remote developer; **led the IVR decision-tree redesign end to end** with Nautilus, from decision to presenting the outcome
- Delivered the **Beverage Container Return Scheme** regulatory rollout: **mapped the microservices and API flow**, led the **Zendesk** build with the RPA team, ran **system integration testing**, led **user acceptance testing (UAT)**, and was **one of three sign-offs on the go decision**, signing for the customer service side
- **Shipped a ticket classifier inside the constraints available**: **BERTopic** surfaced the structure across **50,000+ monthly interactions**, a **Python** rule engine encoded it, and a **JavaScript** port ran on **Apps Script** with no VS Code access, **cutting triage 40%**
- **Automated first response per business unit** on the **Zendesk API**, guaranteeing a first touch by **23 hours against a 24-hour SLA: 75% to 98%** and **20 person-hours** saved daily, with CSAT up **86% to 92%** over the period

Cage Cashier (High-Value Transactions, AML/CDD) | Marina Bay Sands, Singapore

November 2024 - October 2025

- Reconciled **S\$500,000+ in daily transactions** under **AML and customer due diligence** obligations in a licensed, regulated environment

Full-Time National Serviceman (NSF) | Singapore Army, Singapore

September 2022 - September 2024

- **Supervised a team of 8 personnel** on operational security duties as guardroom second-in-command

Customer Care Officer (Data & Reporting) | Tele-Centre Pte Ltd, Singapore

February 2020 - August 2020

- Ranked **1st in performance** on **10,000+ time-critical cases** for MOH Emergency and 993 Ambulance operations, and **trained new staff** to a **25% efficiency lift**

Projects

MakanOS - Hawker Centre Discovery Platform

NTU software engineering module, 5-person team | 2025

- Owned the **backend and data layer** of a full-stack web application: **FastAPI** REST API, **PostgreSQL with PostGIS** geospatial queries, **JWT authentication** and **Alembic** schema migrations
- Built the **ETL pipeline** ingesting Singapore **data.gov.sg** open data with idempotent upserts and chunked batch loading, and authored the **ERD, data dictionary and architecture diagrams** the team built against

Educational Background

Bachelor of Technology in Computing (Work-Study Degree)

Nanyang Technological University, Singapore

August 2025 - July 2029

- Specialization In Artificial Intelligence

India Standard 12 (Eq. A Levels)

Aristo Public School, Tamil Nadu, India

June 2020 - June 2022

Contact

Ang Mo Kio, Singapore

Skills

Solution Delivery

- Vendor & External Partner Management
- Stakeholder Engagement & Requirements Framing
- Translation to Specifications & User Stories
- Regulatory & Compliance Delivery
- Agile Kanban Delivery
- Executive & Large-Audience Presentation

Systems Integration & Automation

- Workflow Automation Design
- REST API & Webhook Integration
- Microservices & Data Flow Mapping
- SIT, UAT & Release Sign-Off
- Zendesk Platform Administration
- Internal Tooling & Process Replacement

Data & AI

- SQL & BigQuery Analytics
- Looker Studio Dashboard Design
- Root Cause & Funnel Diagnostics
- Topic Modelling & Text Classification
- GenAI & LLM Prompt Engineering
- Impact Measurement & ROI Frameworks

Tech Stack

Core

- Python (Pandas, NumPy, scikit-learn), SQL
- JavaScript, Google Apps Script, React
- FastAPI, PostgreSQL, REST APIs, Webhooks
- GCP: BigQuery, Looker Studio, Vertex AI, Apigee
- Zendesk (CRM Admin, Subject Matter Expert (SME)), Salesforce
- JIRA, Confluence, Postman, Git

Working Knowledge

- TypeScript, Java (NTU project work)
- Google Gemini, LangChain, LlamaIndex, MCP
- Ollama, BERTopic, BERT topic analysis
- Azure, SQL Server, UiPath RPA, SAP

Certification

- Certified Full Stack Developer (NTU)
- Azure Cloud Services (Microsoft)
- Large Language Models (Google Cloud)
- Google AI Essentials
- Google IT Support Professional Certificate
- Digital Marketing & Ecommerce (Google)
- Data Science Methodology (IBM)

Additional Information

- **Citizenship**: Singaporean
- **Availability**: Weekdays full-time through 2029, including a 12-month NTU industry attachment Aug 2028 to Aug 2029
